

Immersive Experience: Indonesian Culture and Sustainability Practices

19th - 25th of July 2026, Indonesia

Looking for an adventure that blends travel, culture, and sustainability? This immersive program invites you to explore diverse communities, experience sustainable living firsthand, and build lifelong friendships. Get involved in meaningful projects, embrace new cultural perspectives, and become part of something bigger. Together, we'll explore, exchange ideas, and create positive change—one transformative experience at a time.

Participants will receive:
3 course credits
on Sustainability Implementation

Various Workshops

Learn and discuss interdisciplinary topics such as digital entrepreneurship, local wisdom, Indonesian culture and sustainability practices.

Memorable Destinations

An exciting travel experience that exposes you to Indonesia's rich traditions and heritage, with a touch of vibrant lifestyle in Greater Jakarta.

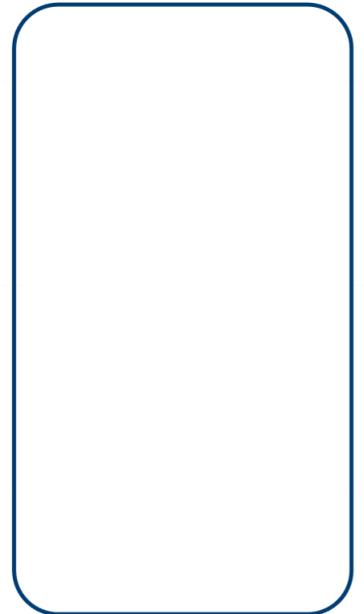

Cultural Exchange

Broaden your global perspective by engaging with like-minded individuals from Indonesia and around the world.

Sustainability Experience

Engage in eco-friendly practices and responsible travel, focusing on environmental conservation, local stewardship, and authentic connection with local communities.

Program Itinerary

19th - 25th of July 2026

The program will run for three weeks in total, with the second week being held in Indonesia and the rest online. The first week covers online onboarding and introductions. Then, upon arriving in Indonesia, participants will spend their second week of the program engaging in various workshops at UMN's campus, travel to Pandeglang, and visit the exciting Taman Mini Indonesia Indah for cultural immersion. Finally, when the participants return to their home country, the third week will conclude with online reporting.

Testimonies

"Throughout the five days, the program helped me grow both academically and personally. I became more confident in communicating in English, especially during group discussions and presentations. Working with international students improved my teamwork skills and taught me how to respect different perspectives and cultures."

Kundan

Parul University, India

"Meeting students from various countries and learning about Indonesian traditions enriched my worldview and strengthened my appreciation for cultural diversity. I would strongly encourage other students to join this exchange program. It is a rare opportunity to learn beyond the classroom, build international connections, and create memories that will last a lifetime."

Chou Vannyda

Cambodia University of Technology and Science (CamTech), Cambodia

"At first, I was worried about the language barrier and missed Japan, but thanks to the support of my classmates, UMN students, and teachers, I was able to spend the most fulfilling five days of my life. Thank you so much. I hope to make the most of everything I learned, struggled, and enjoyed here and make the most of my university life."

Ryota Furukawa

Tokyo Denki University, Japan

"The hardest part was saying good bye. I was in Indonesia for barely a week, but I already felt like I'd been here my entire life. It made me think how lucky I was that I got to make the friends I did, see the places I went, and connect with this beautiful culture."

Ghada Issa

Al-Quds University, Palestine

"The UMN's Experience Program in Jakarta successfully achieved its objectives by integrating academic learning, technological exploration, cultural immersion, and entrepreneurial development. Participants gained valuable knowledge of Indonesian culture, history, and innovation while developing global awareness, collaboration skills, and interdisciplinary understanding. It was my first experience program outside country, I would say it was very Oshadharon (Wonderful in Bengali)."
